## Message from the Principal

As said by Jacques Dellor, the four pillars around which education and learning should be organized are : learning to know; learning to do; learning to live together; and learning to be. These four pillars highlight that only information, degree or job are not enough for us but we should know how to express ourselves ,how to live with harmony and how to be creative in all phases of life. We at Anand Commerce College provide opportunities to the students and faculties to come up with creative thinking and do marvelous activities. This newsletter is the record of whatever we do throughout the year. We wish to see our students and faculties with bright future. Janantik (જનંતિક) Newsletter is our first step towards the creation of knowledge. I congratulate the team of Janantik Newsletter for this excellent work

Happy Reading !
